

CS 440 Meeting Minutes

Group 1 Date: 9/20/21 Time: 9:00PM _____ Duration: _____ 60 Minutes

Present, on time: Andy Hansana, Kevin Elliott, Vincent Weaver, Ryan Crowley

Present, not on time: N/A

Absent: N/A

Synopsis: The purpose of this meeting was to reconvene on how each individual was doing with certain tasks and updates on how everyone has been doing after the first week of sprints. Reconnecting with what each user needed help with and what they have accomplished.

Recent Accomplishments:

- Andy mapped out a framework for how the GUI would look and communicated that with Kevin, and is starting to work with Kevin on logic functions and will meet with Kevin this week.
- Kevin implemented the JavaFX pack that will be handled for the GUI on this project.
- Vince has adopted the environment on his machine and is transferring it into the github repository for other groupmates to use.
- Ryan registered the program for an API key & app token for the Divvy Bikes, and also has been testing different implementations to pull data from the API.

Current Activities:

- Experiment with different outputs from Divvy bikes API
- Map out logic for functions that will create navigation system
- Create Functional and Non-Functional requirements.
- Working on presentation for development project
- Establishing GUI for user

Action Items:

- Kevin: Dividing navigation into more steps for clarity in task assignment between groups, establishing GUI scenes with working transitions.
- Ryan: Figure out where API will be used, connecting API data to populate in the GUI
- Andy: Mapping out logic for functions that will create a navigation system, develop more on the development project outline, creating Van class.
- Vincent: Set up data structures used for storing information with divvy bikes.
